## PREFACE

This statistical release aims to deliver the statistics that were produced base from data that were collected and analyzed by the Tuvalu Central Statistics Division (CSD). Presented in this report are statistical areas which include the Vital statistics focusing on births and deaths statistics; Migration statistics covering the international movement through arrivals and departures; Consumer Price Index (CPI) presenting statistics on inflation rates; and International Merchandise Trade Statistics (IMTS) that presents the international Imports and Exports statistics.

The agencies that collaborated with the CSD in sharing their data were the Health Department, Immigration Department, the collective retail outlets of the priced goods and services and finally the Customs Department. There were changes noticed in data management of some of the sources. The international trade data system of the Customs department has migrated to ASSYCUDA from PCTrade. This system evolvement is a challenge in terms of data access and statistical analyses. The CSD is currently sorting the issue technically to enable the usual process of producing standard trade statistics.

The objective of this report is to communicate the statistics properly to end-users. It is encouraged to use the produced statistics as baselines and evidents to plans, decisions and policies that are to initiate by stakeholders. And provided in the appendix section are detailed tables that are linked to the graphs and tables presented in individual chapters of the report.

The future releases of this report may cover only the summary analyses of the statistical areas. This is due to majority of these areas such as IMTS, CPI and others have their own individual publications. However, the Population projections, National Accounts, Balance of Payments will be added to future releases.

Sincere gratitude is extended to all CSD staff for the effort in data collection, entering data, analyzing data, and producing statistical information. Lots of appreciation and thanks are dedicated to usual data sources as well for their willingness to continuously share data for analysis.

Ms. Grace Alapati
Government Statistician

## SUMMARY STATISTICS

## 1. VITAL STATISTICS

$2018 \quad 2019 \quad 2020 \quad 2021$

## The Births Statistics

1.1 The number of births decreased during 2021

| Annual totals of births | 257 | 251 | 309 | 276 |
| :--- | :--- | :--- | :--- | :--- |

1.2 The male births usually exceed the female births

| Annual totals of male births | 136 | 154 | 167 | 148 |
| :--- | :--- | :--- | :--- | :--- |

| Annual totals of female births | 121 | 97 | 142 | 128 |
| :--- | :--- | :--- | :--- | :--- |

## The Mortality Statistics

| 1.3 The number of deaths was peaked in 2019 and continued to decrease up to 2021 |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Annual totals of deaths | 86 | 140 | 136 | 112 |
| 1.4 The male deceases usually exceed the females |  |  |  |  |
| Annual totals of male deaths | 51 | 75 | 81 | 61 |
| Annual totals of female deaths | 35 | 65 | 55 | 51 |

1.5 Heart complications, severe infection , and respiratory complications were the recognized $^{2}$ leading causes of deaths

| Deceased with heart complication situations | 27 | 11 | $N P$ | 15 |
| :--- | :--- | :--- | :--- | ---: |
| Deceased with severe infection situations | 22 | 13 | $N P$ | 9 |
| Deceased with respiratory complication situations | 10 | 16 | $N P$ | 8 |

## 2. MIGRATION STATISTICS

## The Arrivals

2.1 There is a slight increase in arrivals for 2019 compared to 2018 . And there has significant decline noticed in annual arrivals by 2020

| Annual totals of arrivals | 7,746 | 7,748 | 1,837 | 445 |
| :--- | ---: | ---: | ---: | ---: |
| Annual totals of visitors | 3,099 | 3,672 | 601 | 38 |
| Total annual increase (\%) of visitors |  | $19 \%$ | $-84 \%$ | $-94 \%$ |
| Months with the maximum number of visitor <br> arrivals | December | August | January | January |
| The majority of arrivals were facilitated by | $(355)$ | $(522)$ | $(621)$ | $(15)$ |
| airline) services | $90 \%$ | $97 \%$ | $91 \%$ | $100 \%$ |

## The Departures

2.3 An increase was also observed by 2019 of annual departures. And a significant decline in annual departures is observed for 2020 and 2021

| Annual totals of departures | 7544 | 8618 | 2422 | 557 |
| :--- | :---: | :---: | :---: | :---: |
| Annual totals of residents | 4232 | 4693 | 1484 | 488 |
| Total annual increase (\%) of residents |  | $11 \%$ | $-68 \%$ | $-67 \%$ |
| The majority of departures were facilitated | $95 \%$ | $95 \%$ | $87 \%$ | $100 \%$ |

## 3. CONSUMER PRICE INDEX

3.1 The inflation rates continued of being positive indicating the prices of goods and services used to access by the people continued to increase $\begin{array}{lllll}\text { Average annual inflation rates (\%) } & 2.20 \% & 3.50 \% & 1.60 \% & 6.70 \%\end{array}$
3.2 Other than the Miscellaneous group, prices of items of housing, clothing \& textiles and alcohol \& tobacco groups contribute significantly to price increase since the year 2016
3.3 Food prices used to increase annually, but noticed of declining averagely in 2020

| changes |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| 1 Food | 1.20\% | 1.30\% | -10.50\% | 3.60\% |
| 2 Alcohol \& Tobacco | 0.60\% | 0.40\% | 3.70\% | 2.46\% |
| 3 Clothing \& Textiles | 0.20\% | 0.10\% | 6.00\% | -0.41\% |
| 4 Transport | 0.70\% | -0.50\% | -16.60\% | 1.64\% |
| 5 Housing | 0.10\% | 2.50\% | 4.60\% | 0.12\% |
| 6 Miscellaneous | -0.60\% | -0.30\% | 14.40\% | -0.71\% |
| All Groups Expenditure | 2.20\% | 3.50\% | 1.60\% | 6.70\% |

## 4. INTERNATIONAL MERCHANDISE TRADE STATISTICS

3.1 The international exports of Tuvalu are almost insignificant when compared to imports resulting in a negative trade balance annually

| Total imports (AU\$000) | 46,852 | 46,852 | 49,163 | 42,866 |
| :--- | ---: | ---: | ---: | ---: |
| Total exports $(A U \$ 000)$ | 405 | 405 | 69 | 439 |
| Balance of trade $A U \$ 000)$ | $-46,447$ | $-46,447$ | $-49,093$ | $-42,427$ |

3.2 The imports traded were mainly the Machinery \& mechanical \& electrical appliances \& parts thereof, Mineral products, Prepared foodstuffs, beverages, spirits \& tobacco The main imports value (AU\$)

| Machinery \& mechanical \& electrical appliances \& parts thereof | $26 \%$ | $13 \%$ |
| :--- | :--- | :--- |
| Mineral products | $13 \%$ | $16 \%$ |
| Prepared foodstuffs, beverages, spirits \& tobacco | $12 \%$ | $15 \%$ |

3.3 The exports traded were mainly the Mineral products and vehicles, aircraft \& associated transport equipment for 2021

| The exported Mineral products | $69 \%$ | $9 \%$ |
| :--- | ---: | ---: |
| The exported vehicles, aircraft \& associated transport equipment | $3 \%$ | $87 \%$ |

## 1. Vital Statistics

### 1.1 Overview

The analyses below are Vital Statistics based from data collected from the Health department.

This report does not include the usual demographic indicators of vital statistics such as rates of birth, death, mortality, and others as they are covered in the CRVS statistical compilation. The analysis below focuses on total births and total deaths that have occured throughout the annual year of 2021.

### 1.2 Total Births from Jan-Dec, 2021.

### 1.2.1 Total Births by Months.

Figure 1: Total births by month for the year 2021

The figure 1 above demonstrates the total births by months from January to December 2021. Throughout the annual year 2021, it shows that the highest number of births occurred in October 2021 with 31 total births, while May 2021 has the lowest number of births.

### 1.2.2 Total births by Island of Occurrence

Figure 2: Total births by Island of Occurance

Figure 2 illustrates the total births by island of occurrence from January to December 2021. It shows only a few births occur in outer islands of Tuvalu being Nukufetau, Vaitupu, Nui, Nanumaga and Nanumea while approximately $90 \%$ of total births occur in the capital Funafuti, Tuvalu. The reason for the high birth rate in Funafuti is due to the main hospital branch being located in this main land thus most resources are available to women in Funafuti.

### 1.2.3 Total births by age of mothers.

The figure 3 below illustrates Total births by distribution of mothers age groups from January to December 2021. The most frequent age group of women to give birth is between ages 25-29 with approximately 88 total births occuring annually. Ages between 20-24 demostrates a high birth rate with 83 total births to have occured during the year 2021. In between these age groups, most women are settled into marriage and starting their own families.

FIGURE 3: TOTAL BIRTHS BY AGE-GROUP OF MOTHERS

### 1.3 Total Deaths from Jan-Dec, 2021.

### 1.3.1 Total Deaths by Months.

Figure 4 below shows that in April 2021, the highest death rate was recorded at 14 total deaths, 13 total deaths were recorded in July 2021, while the lowest death rate was recorded on November 2021.

Figure 4: Total Deaths per Month

u Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec
1.3.2 Deaths by age group.

Figure 5: Total deaths by age group

In the figure 5 above, the age group with the most frequent death rate is between ages 7074 with 18 total deaths throughout the year. The least frequent age group for total deaths is ages between 25-29 as well as ages 40-44. No deaths were recorded for children ages 2 to 9 and adults ages 15 to 24 .

### 1.3.3 Causes of Death.

Figure 6: Total deaths by simplified categories of causes of death

Figure 6 above demonstrates the simplified categories of causes of death from January to December 2021. At most cases, causes of death are categorized as NIL thus in the category named NS (not specififed). Second most frequent classification of causes of death is heart complication.

## 2. Migration

### 2.1 Overview

This section of the report is a coverage of the international movements to and from Tuvalu. This section will cover international arrivals and departures with a focal point on visitor arrivals as well as residential departures.

As a result of the COVID 19 State of Emergency lockdown that has taken place worldwide and in Tuvalu, travels to and from Tuvalu have been limited and thus a major decrease in migration data in comparison to pre-Covid years. Tuvalu announced its state of emergency lockdown in March 2020, and has since been keeping its nation Covid-free and secure with limited travels to and from Tuvalu.

### 2.2 Total Arrivals from Jan-Dec. 2021.

### 2.2.1 Total Arrivals by Months

The Figure 7 below shows the Total arrivals throughout the annual year of 2021 from January to December. As depicted in the figure 7 below, January demonstrates to have the highest arrivals with 104 total arrivals. A decreasing trend after January which later increased in the third quarter from October and December. January and December are the most frequent travelled months due to holiday season therefore a high rate of arrivals allowing residents and students to travel back home to families.

Figure 7: Total arrivals by month

### 2.2.2 Visitor arrivals by Purpose of Visit

Figure 8 below shows the how many visitors Tuvalu had throughout the year 2021 in accordance with their purpose of visit. The figure 8 shows that for most visitors, their main purpose of visiting Tuvalu was for Holiday. These visitors are often Tuvaluans who now live abroad and travel to visit their families in Tuvalu.

### 2.2.3 Arrivals by Nationality 2018

Total visitors arrivals for the annual year 2021 has drastically declined due to Covid-19 lockdown and restrictions on travelling. Figure 9 below shows that from January to December, Tuvalu nationals or local citizens who study abroad or have dual citizenships are our most frequent visitors to Tuvalu as they travel often to visit families in Tuvalu.

### 2.3 Total Departures from Jan-Dec. 2021.

### 2.3.1 Total Departures by Months

The figure 10 below is an illustration of total departures by month from January to June, 2021. Similarly to the total arrivals by month in figure 7, the highest occurrence of departure was in January with 142 departures. The numbers began to decrease through the latter months due to strict travel restrictions.

Figure 10: Total departures month

Depicted in figure 11 above are the residential departures by purpose of travel. Residents travel overseas for the main purpose of Medical treatments (224 resident departures).
Another purpose of departure is for Educational purposes (132 residents) and 92 residents travel abroad for Social or Family purposes.

## 3. Consumer Price Index (CPI)

The Tuvalu Consumer Price Index is collected and analysed by the Tuvalu CSD on a monthly basis. The CPI section below is a brief coverage of the Average annual inflation rates as well as the Average Price Indeces, however a more comprehensive analysis will be covered in the CPI Release.

### 3.1 Inflation Rates

Figure 12 provides a graphical illustration of the average annual inflation rates for the years 2019-2021.

Figure 12: Average Annual Inflation Rate (\%)

### 3.2 The Price Indices

Figure 13 below provides a graphical illustration of the average price index from years 2016 to 2020 along with 2021. The figure below also notes an increase in prices throughout the years.

Figure 13: Average index

## 4. International Merchandise Trade Statistics (IMTS)

In this section, we briefly demostrates Tuvalu's total imports and exports throughout the year 2021. A more thoroughly written report on International Merchandise Trade Statistics (IMTS) will cover Tuvalu's trade in depth is updated on a quarterly basis by the Tuvalu CSD.
4.1 Import \& Exports from Jan-Dec 2021.

From the demonstrated figure 14 above, it is noticed that total imports are far greater than total exports for Tuvalu, therefore, Tuvalu has a constant trade deficit. Reason being that Tuvalu lacks the proper resources to service independently and we remain highly dependent on foreign products.

## APPENDIX TABLES

Table A1. Total births by month and sex, Jan-Dec, 2021.

| Month | Female | Male | Total |
| :--- | :---: | :---: | :---: |
| Jan | 12 | 11 | 23 |
